DATA DESCRIPTION

This dataset was collected using a mixed-method approach:

1. Qualitative Data:

- Semi-structured interviews with 20 participants.
- Participants included managers, technical staff, and non-technical employees.

2. Quantitative Data:

- Structured questionnaires distributed to 80 participants.
- Included both closed-ended and open-ended questions.

Data Processing:

- Interviews were transcribed and anonymized.
- Thematic analysis was conducted to identify key themes.
- Quantitative responses were analyzed to identify behavioral trends.

Limitations:

- Data is limited to organizations based in Karachi, Pakistan.
- Sample may not represent all industries globally.
